I am Emre Çiğil. I was born in Kayseri at 2002. I study at Computer Science Department. I deal with coding longer than 1 period and try to be strong when I get error. I guess I love Python more than Java. It seems more difficult, but I like creating new thing.

I acknowledge that I have fully read and understood the contents of the course website; I will not share my work (not even a part of it) on Piazza; I will be responsible for what has been discussed/asked on Piazza; I will not expect any response for my questions that have already been asked or written in a language other than English. I understand that if I have any questions or concern about the course mechanics, it is my responsibility to discuss them with the instructors within their office hour.
